EDUCATION

Sathyabama Institute of Science and Technology
B.E. Computer Science and Engineering

Chennai, Tamilnadu, India
September 2022 – April 2026

TECHNICAL SKILLS

- **Programming Languages:** Java, TypeScript, JavaScript, Python
 - **Web Technologies:** React.js, React Native, Next.js, Node.js, SCSS, Tailwind CSS
 - **Other Technologies:** Stripe, Rest APIs, Zustand, Expo
 - **Databases:** MongoDB, SQL, Neon
 - **Tools:** Git, Github
 - **Skills:** Full-stack web development, Responsive UI design
-

PROJECTS

- **Uber Clone (React Native+ TypeScript + Stripe+ NeonDB)**
 - Developed a full-featured Uber-like ride-booking app using React and TypeScript with seamless frontend-user experience.
 - Integrated Stripe API for secure and real-time payment processing.
 - Used Neon Database for scalable and reliable backend data management.
 - Built with Next.js for performance and server-side rendering.
 - Implemented Google Maps API for route tracking and booking interface.
 - **MCP Server (Python)**
 - Built a modular command-based server using Python for the MCP protocol.
 - Implemented dynamic command parsing and asynchronous message handling.
 - Designed the architecture for extensibility and easy integration of new commands.
 - **PawStore – Online Dog Accessories Store (SASS)**
 - Developed a complete frontend website for a dog products store using React and SCSS.
 - Focused on intuitive UX/UI design, clean layout, and responsiveness across devices.
 - Implemented dynamic product rendering and reusable components.
-

CERTIFICATES

- **NPTEL** - Blockchain and its Applications (Issued in April 2025)
- **UDEMY** - Full Stack Web Development Bootcamp (Issued in April 2025)
